A MESSAGE OF CONGRATULATIONS

WELL Performance Rating

WPR | WPR005357
BEE Incorporations Shanghai Office

The International WELL Building Institute (IWBI) warmly congratulates BEE Incorporations for achieving WELL Performance Rating, and becoming one of the global pioneers of such achievement.

The WELL Performance Rating is based on a subset of features from the WELL Building Standard that enables organizations to focus on measurable building performance strategies verified through onsite testing and sensor technology. The Rating was developed with verifiable strategies in mind and third-party validation at its heart. Upon achievement of the Rating, BEE Incorporations Shanghai Office has distinguished the space from the crowd and showed that the space exceeds industry benchmarks for health.

IWBI is very proud of our collaboration with BEE Incorporations. The team has supreme commitment to provide healthy spaces. Healthy spaces can have profound positive impacts upon people's lives.

We look forward to ongoing collaboration with BEE Incorporations for many happy, healthy years to come.

Best regards,
